Checklist

Influences-

Active elderly-the first concept that will influence me during my design of the building and site is a create a place for the older groups of the community. Somewhere they can gather and be active or just enjoy themselves.

Sunlight- another concept that I want to use to help influence my design is the sun and the light it produces. I want to take advantage of the constant sunlight that the site gets due to it being isolated from other structures and use it to light up the structure.

Needs-

Fitness center

Concession stands

Play area (indoor or outdoor)

Green areas to enjoy

ADA compliant

Wants-

Banquet hall

Running track, either indoor or outdoor

Garden area

Special event outdoor area

Small athletic fields (tennis, mini golf, skate park, etc.)

Considerations-

Good flow of foot traffic for the elderly

Traffic flow from cars

Suns path during the day

Other structures nearby

Noise control from surrounding area
